- Observed efficiency and accuracy in data entry by actively contributing to the migration of sales data and inventory,

PROJECTS

Incognito Pest Control Website

Client-based Project

- Developed and maintained a responsive business website, ensuring performance, accessibility, and deployment reliability to improve user engagement and support the company's online growth.
- Applied modern web development and optimization practices to deliver a scalable and user-friendly digital platform.

RECOMED: A Patient Records and Appointment Queueing System

Capstone Project

- Demonstrated proper coding standards and practices which ensured the full functionality and efficiency of the system to exceed the expectations of the client.
- Assumed the key-role as the leader of the back-end development, practicing proper time-management, prioritization, and communication amongst the team which fortified the successful integration and deployment of the fully functional system.

Machine Aided Detection and Classification of PCOS

Data Mining Project

- Forefront of the development of scripts, algorithms, and training of predictive models, ensuring that the system had accurate and reliable predictions.
- Observed extensive research to ensure the uniqueness and efficiency of the system compared to similar studies.

KIBO: SOS Made Easy

Technopreneurship Project

- Spearheaded the design, planning, and development of the project, ensuring the success and quality of the system.
- Assumed the key role as the leader of the team, observed leadership to ensure the productivity of the group and the success of the project.

TECHNICAL SKILLS

- **Languages:** C#, Java, Python, PHP, TypeScript, JavaScript
- **Web & Backend:** HTML5, CSS3, NestJS, REST APIs, IIS
- **Database:** SQL Server, MySQL, T-SQL
- **Tools:** Git, GitHub, Jenkins, ServiceNow, PowerShell, ClickUp
- **Cloud:** AWS IAM

EDUCATION

Saint Louis University

Baguio City

Bachelor of Science in Information Technology

- Dean's Lister
- Loyalty Awardee
- Top 50 Finalist, Innovation Generation Smart Sweep Season 3
